15. HEARINGS

15a. PP 90-7, KERMIT AND ELAINE TAUBE

Mayor Geissert announced that this was the time and place for City Council consideration of an applicant appeal of a Planning Commission denial of a request for approval of a Precise Plan of Development to allow construction of a first and second story addition to an existing one-story residence at 5124 Reese Road in the R-1 zone located in the Hillside Overlay District. PP 90-7: Kermit and Elaine Taube.

Proof of publication, provided by the City Clerk, was filed without comment.

During the staff presentation on this agenda item, Senior Principal Planner Gibson noted that the Planning Department believes that the applicant has made an effort to respond to the concerns of the Planning Commission, staff and neighbors and, therefore, recommends approval of the appeal and approval of the revised project with conditions.

City Council
July 10, 1990

The applicant, Mrs. Elaine Taube, 5124 Reese Road, addressed specific efforts on their part to modify their design to meet neighborhood concerns. Mrs. Taube submitted, for the record: a composite picture showing the scaled-down silhouette, a list of addresses of all two-story homes on Reese Road, minutes of the City Council meeting of February 27, 1990, wherein a project similar to theirs was approved.

Mr. Kermit Taube, 5124 Reese Road, called attention to Page 1, last paragraph of the staff report wherein the proposed 5,009 total square footage of floor area should correctly be indicated as inclusive of the 600 square foot garage. This speaker then described in detail their plans as presently modified, and requested favorable Council consideration.

The following members of the audience spoke in FAVOR of the project as currently designed.

- Mr. Roger Harrold, 5113 Reese Road.
- Ms. Marie Mushaney, 5006 Sharynne Lane.
- Mr. Bill Yonker, 5306 Linda Drive.
- Mr. Richard Hoffman, 5321 Carol Drive.
- Mr. Michael Mushaney, 5006 Sharynne Lane.
- Mr. Darryl Adams, 5112 Reese Road.
- Ms. Genevieve Butler, 5118 Reese Road.

There being no further audience comments, Councilman Applegate moved to close the hearing. His motion, seconded by Councilman Walker, carried by unanimous roll call vote.

Mayor Geissert inquired if a representative from the Warren household [neighbor to the west of the subject site] was present. There was no response.

MOTION: Councilman Applegate moved to grant the appeal and approve PP 90-7, as modified. His motion was seconded by Councilman Walker and roll call vote was unanimously favorable.

16. APPEALS

16a. SIGN CASE 80-2, DEL AMO FASHION CENTER

The staff presentation on this agenda item was provided by Environmental Quality Administrator McElroy who noted that both the Environmental Quality and Energy Conservation Commission and Building and Safety staff recommend denial of the subject request for four (4) readerboard signs. Ms. McElroy recommended, should Council approve the sign concept, that the following conditions be imposed.

- 1) That one (1) prototype sign not to exceed 15' in height be allowed to determine the effectiveness of this type of sign.
- 2) That only two (2) lines of electronic copy be allowed and that it fade in and fade out. Staff feels four lines are too busy to be read effectively or to be safe in heavy traffic.
- 3) That copy is to remain static for at least 20 seconds with an interval between messages of at least four seconds. This will appear as static copy.
- 4) That no running, blinking, flashing, or changing copy or graphics that appears to be in continuous motion be allowed.
- 5) That the intensity of illumination remain constant.

City Council
July 10, 1990

- 6) That no off-premise advertising be allowed.
- 7) That effective time and space be allowed to announce special events that pertain to the common good of the citizens of Torrance.
- 8) That a permit be obtained from Caltrans if a sign is located on a state highway.
- 9) That the location of the sign(s) be approved by the Transportation and Police departments.
- 10) If all four signs are approved that all existing major center signs be removed.

Representing The Torrance Company, owner and operator of Del Amo Fashion Center, was Mr. Milan Smith, Suite 500, 21515 Hawthorne Boulevard. Mr. Smith provided detailed input regarding this request for four readerboard signs for Del Amo Fashion Center.

Mr. Smith agreed to all conditions listed above with the exception of Nos. 1, 2 and 10. Regarding Condition 10, it was explained by Mr. Smith that they will not be removing the marquee board for the movie and "a couple of other smaller ones"; however, they do propose to move all of the major, old fashioned signs.

Relative to Condition 1, Mr. Smith submitted that a sign only 15 feet in height would provide no visibility on Hawthorne Boulevard and a prototype sign would be cost prohibitive [a consideration supported by correspondence dated June 20, 1990, from Superior Electrical Advertising, which was submitted for the record at this time]. He requested that they be allowed four signs to be placed contemporaneously, with the sign on Hawthorne Boulevard to be 34 feet high.

Continuing his presentation with the aid of slides and with two photo boards which were submitted for the record, Mr. Smith stressed the need for four lines of copy on the signs requested, rather than two lines as required per Condition 2.

Mr. Jeffrey Stern, Superior Electrical Advertising, 1700 West Anaheim Street, Long Beach, joined Mr. Smith at the podium and provided a display unit illustrative of the type of lighting proposed for the requested readerboards.

City Council
July 10, 1990

Mr. Stern advised, in response to a specific Council question, that after the four requested readerboard signs are installed, there will be 1,000 square feet less signage than presently exists for the mall. This statement was later refuted by staff, who maintained that the subject proposal would result in a similar amount of sign square-footage as presently exists at the center.

Councilman Applegate deemed the 34-foot high readerboard to be counterproductive to the City's efforts to maintain an uncluttered appearance, represented by the undergrounding of utilities, etc. He questioned the impact of moving copy on traffic safety, and further suggested that the installation of the proposed signs could result in a later request for the removal of existing mature trees.

The following members of the audience spoke in OPPOSITION to the subject request.

- Ms. Dorothy Miller, 21301 Ocean Avenue,
- Mr. Frank Rizzardi, 23544 Carlow Road, President of the Southwood Riviera Homeowners Association,
- Mr. Howard Sachar, 708 South Catalina, Redondo Beach,
- Mr. Larry Gitschier, 1303 Acacia.

Council discussion continued.

Mayor Geissert commented on her philosophy that a sign program in a city is a means of identification -- not a means of advertising.

Favoring the request for readerboard signs, Councilman Walker observed that the mall has an obligation to upgrade its signing on a periodic basis. While stating that four lines would be "too much", Mr. Walker offered his opinion that the City has the ability to establish proper conditions and controls regarding the messages to be allowed.

Considering the size of the Del Amo Center, Councilman Walker suggested that the size of the signs proposed is not unreasonable and would not represent a safety hazard. Mr. Walker recommended, however, that the Council be apprised of locations with similar existing sign programs in order that a visual judgment might be made.

City Council
July 10, 1990

Councilwoman Hardison offered her opinion that four lines of copy would be cluttered and difficult to read, and she, too, expressed a desire to view like signage in existence. Ms. Hardison indicated opposition to the specific request for the Hawthorne Boulevard frontage and noted that, with the "all or none proposal" before the Council she would vote for "none."

MOTION: Councilwoman Hardison moved to deny Sign Case 80-2. Her motion was seconded by Councilman Wirth.

At this point Mr. Smith requested that the item be continued and, following further discussion, noted a willingness to withdraw the application, stating that their objective would be to be able to return to the Council rather than appearing again before the Environmental Quality and Energy Conservation Commission.

A SUBSTITUTE MOTION was offered by Councilman Walker to continue the subject item. This motion DIED FOR LACK OF A SECOND.

Roll call vote on the motion for denial carried as shown below.

AYES: Councilmembers Applegate, Hardison,
Mock, Nakano, Wirth and Mayor Geissert.

NOES: Councilman Walker.

Mayor Geissert recapped the Council's majority opinion that the concept of readerboards and moving copy is undesirable and the size and nature of the signage proposed was found to be "too garish."
