10. TRANSPORTATION/PUBLIC WORKS MATTERS

10a. ASSEMBLY BILL 939

RECOMMENDATION:

It is the recommendation of the City Manager that the City Council concur in the following:

- That residential refuse fees be increased within a range of \$.08-.13 per month to offset the costs of consulting fees for AB 939 with a definite rate being set after a consultant is selected and costs are determined. This increase will occur at the same time an increase is made for the expanded curbside recycling program. This should occur in January or February of 1991.
- That a refuse bin fee ranging from \$2.50 to \$3.85 per half yard per year for all commercial trash companies conducting business in the City be established. This is also to offset consulting costs for AB 939.
- That a resolution be brought forward to increase the residential rates and create a commercial bin fee once the consulting fees are determined.
- That an ordinance be brought forward to monitor the commercial bins within the City which includes requirements for a numbering system, ownership identification and maintenance of bins.

City Council
September 18, 1990

A formal staff presentation, supplemented by transparencies, was provided by Assistant to the City Manager Keane, who responded to concerns and questions brought forward during earlier Council consideration of this matter [August 21, 1990].

In response to a concern voiced by Councilwoman Hardison relative to parameters of the proposal, City Manager Jackson explained that the consultant will be developing a master plan for enforcement which will require compliance by commercial and residential/private and public haulers.

Audience comments were invited by the Mayor.

Ms. Sandi Monda, 21506 Talisman, read aloud a statement [submitted for the official record] from the Executive Board of the Southwood Homeowners' Association. It was Ms. Monda's request that this correspondence, in its entirety, along with correspondence from Southwood submitted on August 21, be included in future agenda items on this subject.

Mr. Chip Sholz, Director of Community Affairs, BFI Waste Systems, provided information regarding approaches contemplated by other cities regarding AB 939, and commended the City of Torrance for its involvement.

MOTION: Councilman Wirth moved to concur with the above stated staff recommendation. His motion was seconded by Councilwoman Hardison.

15. HEARINGS

15a. CUP 90-31, TT 49582: DAVID GALLARDO

Mayor Geissert announced that this was the time and place for City Council consideration of an appeal by the applicant of one of the conditions of approval imposed by the Planning Commission when it granted a request for a Conditional Use Permit to allow the construction of a six-unit condominium and a Tentative Tract Map to allow a one-lot subdivision for condominium purposes on property located in the R-3 zone at 2214 and 2218 Cabrillo Avenue. CUP 90-31, TT 49582: DAVID GALLARDO.

Proof of publication, provided by the City Clerk, was filed without comment.

During the staff presentation on this agenda item, Senior Principal Planner Gibson advised that the Planning Commission and the Planning Department recommend denial of the appeal and approval of the project as conditioned. Mr. Gibson noted that the basis for the applicant's appeal is the condition requiring relocation of the gate at the rear of the project...staff, per Mr. Gibson, recommends that the condition be retained in order to allow adequate space to accommodate vehicles prior to encountering the parking control gate.

Two concerns voiced by Councilwoman Hardison included the fact that pedestrian access is by security gate only, and location of the third parking space for the two three-bedroom units being somewhat remote from those units.

City Council
September 18, 1990

Deletion of the condition requiring a setback of the security gate was recommended by Councilman Walker, who offered his opinion that there would be no more queuing of cars in the alley when approaching this automatic gate/door than there would be in approaching a normal garage door with an automatic door opener.

Concerns regarding the noise emanating from the proposed automatic roll-up door were voiced by Mayor Geissert.

Mr. Ignacio Aliaga, 14979 South Prairie Avenue, Lawndale, architect, presented a model of the project for review by Council. Mr. Aliaga noted that the gate under discussion was designed flush with the building perimeter for reasons of security and, to relocate it 20 feet to the west [per Condition #22] could create an unsafe area off the alley.

In response to a question from the Mayor, Mr. Aliaga indicated their preference for a roll-up door because of the additional area required to house the mechanism for a swing-in gate and because, in his opinion, the swing-in type is not as secure.

The owner and developer of the property, Mr. Alexander Macksoud, 49 Rollingwood Drive, Rolling Hills Estates [business address 21707 Hawthorne Boulevard, Suite 304], addressed concerns voiced by the Mayor regarding noise associated with a roll-up door, explaining that the type of motor lift to be used will not represent any substantial noise.

There being no one else who wished to address this matter, Councilman Applegate moved to close the hearing. His motion was seconded by Councilman Walker and roll call vote was unanimously favorable.

MOTION: Councilman Walker moved to grant the appeal and grant the project [CUP 90-31, TT 49582, David Gallardo]. His motion was seconded by Councilman Mock.

Prior to roll call vote on the motion, Senior Principal Planner Gibson advised that staff will work with the applicant and his architect regarding an acceptable type of gate. Mr. Gibson also requested, if approval is intended to be with a gate flush with the building, that Condition #22 be deleted.

Councilman Walker so AMENDED his motion; accepted by Councilman Mock as seconder. Mayor Geissert then requested that number and title be read for the following resolution.

City Council
September 18, 1990

RESOLUTION NO. 90-191

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF TORRANCE, CALIFORNIA, APPROVING A CONDITIONAL USE PERMIT TO ALLOW THE CONSTRUCTION OF SIX CONDOMINIUM UNITS ON PROPERTY LOCATED IN THE R-3 ZONE AT 2214 AND 2218 CABRILLO AVENUE
CUP 90-31: DAVID GALLARDO

MOTION: Councilman Walker moved to adopt Resolution No. 90-191 as AMENDED. The motion, seconded by Councilman Mock, carried by unanimous roll call vote.

17. ADMINISTRATIVE MATTERS

17a. AMENDMENT TO RULES OF ORDER

RESOLUTION NO. 90-192

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF TORRANCE AMENDING THE RULES OF ORDER (RESOLUTION 87-7) BY ADDING A PROVISION FOR RECONSIDERATION IN THE EVENT OF A TIE VOTE

MOTION: Councilman Nakano moved to adopt Resolution No. 90-192. His motion, seconded by Councilman Walker, carried by unanimous roll call vote.

17b. REVIEW OF THE CITY CHARTER

RECOMMENDATION:

The Council Employee Relations and Department Organization Committee unanimously recommends against a complete review of the City Charter by an appointed committee. The Committee, however, stated a willingness to look at individual issues the League of Women Voters may wish to bring to the Council.

Following the committee report by Councilwoman Hardison, audience comments were invited by the Mayor.

Ms. Lynitta Schaffer, President of the Torrance League of Women Voters, read aloud a statement from the League [copy submitted for the official record] suggesting, in light of the committee recommendation against a complete review, that staff

City Council
September 18, 1990

undertake a thorough inspection of the Charter for illegal and/or obsolete sections. Ms. Schaffer stated the League's intent to continue to pursue major policy issues.

During the Council discussion which followed, it was agreed by City Attorney Nelson that "housekeeping" of the Charter be accomplished on a regular basis and that a staff member in the City Attorney's office be designated as a "touch point" for questions on the Charter.

MOTION: Councilman Walker moved to concur with the Committee recommendation on Agenda Item 17b. His motion was seconded by Councilman Wirth and roll call vote was unanimously favorable.

17c. AWARD OF CONTRACT - ASBESTOS REMOVAL

RECOMMENDATION:

It is the recommendation of the Director of General Services that the City Council accept the low bid of \$47,186 and award a contract to AMERICAN TECHNOLOGIES, INC. of Orange, CA, for removal of asbestos materials located in the area of renovation in the East Wing of City Hall.

MOTION: Councilman Wirth moved to concur with the above stated recommendation of the Director of General Services. His motion, seconded by Councilman Walker, carried by unanimous roll call vote.

17d. BUDGET AMENDMENT - CITY ATTORNEY'S OFFICE

RECOMMENDATION:

The City Attorney recommends that the 1990-91 Budget be amended to include \$33,000 to fund one Secretary position in the Civil Division of the City Attorney's office from October 1, 1990 through the end of the fiscal year.

CITY MANAGER'S NOTE:

The green sheet submitted with the 90-92 budget for this position had medium priority at that time. Recent litigation activity and the complexity of certain legal support service justify a reassessment of that

City Council
September 18, 1990

priority. If the City Council concurs with this recommendation, it is necessary to appropriate \$33,000 from the reserve for contingencies.

MOTION: Councilman Wirth moved to concur with the staff recommendation. His motion was seconded by Councilman Walker and roll call vote was unanimously favorable.

17e. ACUTELY HAZARDOUS MATERIALS (AHMs) REVIEW AND PERMIT PROCESS

RECOMMENDATION:

It is the recommendation of the Public Safety Committee that the City Council as a whole:

1. Concur with the recommendation to solicit an RFP for a consultant to develop evaluation criteria for new and existing users of AHMs.
2. Concur in concept with the draft ordinance creating the structure for a review and permit process for new and existing users of AHMs.

A formal presentation of this item was provided by Management Assistant Sunshine per detailed written material included in agenda packets.

Background information on the Risk Management and Prevention Process [RMPP] and the evolvement of State legislation in that regard was provided by Fire Chief Adams. In response to Council questions, Chief Adams expanded on the written material at hand and related further details of the process under consideration.

In response to the Mayor's invitation for audience comments, Mr. Steve Whitehead, 3101 Plaza del Amo, expressed concerns and offered suggestions as follows:

- There should be a qualitative, not quantitative, approach to an acceptable risk;
- Right of abatement should not apply to existing users of AHMs;
- Risk benefit should be addressed;
- Public involvement should be represented by way of written comments on the RMPP to the Chairman of

City Council
September 18, 1990

the Chemical Review Board who would then decide if there is sufficient reason for an appeal;

- Either the Chemical Review Board should be expanded to include members from industry or a representative from industry should be made an additional consultant to the Board;
- A workshop, sponsored by the Torrance Area Chamber of Commerce, should be held explaining the procedure in determining an acceptable risk; and,
- Users of AHMs should be notified that the ordinance is before Council for review.

Mr. Whitehead requested that the Council delay any decision on the ordinance and the RFP at this time pending further consideration and review.

Addressing a concern expressed by Mr. Whitehead as to the number of RMPP's anticipated for the City of Torrance, Fire Chief Adams explained that it has been determined that there are some 61 site-specific users of AHMs above the threshold planning quantities, those 61 users representing approximately 27 firms, which will result in not more than 50 or 60 RMPP's for the City for existing users.

Councilman Mock, as Chairman of the Council's Public Safety Committee, advised that the issues brought forth this evening by Mr. Whitehead had all been addressed at the committee level.

Council comments were forthcoming.

Councilman Walker commented on the posture of the City of Torrance as being on the "cutting edge" of public safety and environmental concerns. He further noted this Council's commitment to providing protection for the citizens of the community.

Concurrence with the broad perspective approach outlined in the RFP was expressed by Councilwoman Hardison.

Appreciation for the efforts of Fire Chief Adams and Management Assistant Sunshine on this subject was expressed by Councilman Applegate and an attitude of "mutual trust" was urged.

Councilman Mock requested, in deference to Mr. Whitehead, that the Request for Proposal add a provision that the consultant meet with industry at several workshops to discuss some of the problems that industry may have and the guidelines

City Council
September 18, 1990

that are set up that will be coming forward to the Council. This requirement should be communicated to all consultant firms, per Mr. Mock.

While noting that she agrees in concept with the Committee recommendation, Mayor Geissert indicated concerns regarding the manageability of the process as currently conceived. The Mayor stated her need to know more about the actual workings of the process; any delay factor involved in getting approval for expansions and improvements of certain businesses in the City; and whether or not the process can be handled internally.

MOTION: Councilman Walker moved to concur with the Public Safety Committee's recommendation, adding the comments of Councilman Mock relative to interaction between the consultant and industry. The motion, seconded by Councilman Mock, carried by unanimous roll call vote.

* * *

At 8:00 p.m., Mayor Geissert ordered a recess. The Council reconvened at 8:32 p.m.
