Execution of the contract under these specifications shall constitute agreement by the Contractor and the City that Five Hundred Dollars (\$500) per calendar day is the minimum value of the costs and actual damage caused by failure of the Contractor to complete the work within the allotted time, that such sum is liquidated damages and shall not be construed as a penalty, and that such sum may be deducted from payments due the Contractor if such delay occurs. Said amount may be reduced by the City if work is sufficiently completed within the allotted time so that the damages are minimized.

The Contractor will not be assessed liquidated damages for any delay in completion of the work when such delay was caused by the failure of the City or the owner of a utility to provide for removal or relocation of the existing utility facilities; provided, however, that the Contractor shall have given the City and the owner of a utility timely notice of the interference. "Timely notice" shall be defined as a verbal notice (to be followed up in writing) no later than one (1) hour after initial discovery of the interference unless the City Representative is present, in which case notice shall be given immediately in writing to the City Manager.

- j) "Divert" means to use material for any purpose other than disposal in a landfill or transformation facility.
- k) "Diversion requirement" means redirection from the waste stream of at least 50 percent of the total C&D Debris generated by a project via reuse or recycling.
- l) "Non-covered project" means a construction or renovation project in which the total costs are not projected to be greater than or equal to one hundred thousand dollars (\$100,000).
- m) "Project" means any activity that requires an application for a building permit, demolition permit, or any similar permit from the City.
- n) "Recycling" means the process of collecting, sorting, cleansing, treating and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused or reconstituted products which meet the quality standards necessary to be used in the marketplace.
- o) "Renovation" means any change, addition or modification in an existing structure.
- p) "Reuse" means further or repeated use of materials in their original form.
- q) "Salvage" means the controlled removal of C&D Debris from a permitted building or demolition site for the purpose of recycling, reuse or storage for later recycling or reuse.
- r) "Total costs" means the total construction value of the project using standard commercial and residential valuation formulas.
- s) "Waste Management Plan" ("WMP") means a completed WMP form, approved by the City for the purpose of compliance with this Article, submitted by an applicant for any covered project.
- t) "WMP Compliance Official" ("Official") means the designated City employee(s) authorized and responsible for implementing this Article.

Section 43.8.2. Threshold For Covered Projects.

- a) Covered Projects. For the purposes of determining whether a project meets the threshold, all phases of a project and all related projects taking place on single or adjoining parcels, as determined by the Official, will be deemed a single project.
- b) Non-covered Projects. Non-covered projects are not required to meet the waste diversion requirements of this Article. However, an applicant for a non-covered project will be encouraged to divert as much project-related C&D Debris as possible.

Section 43.8.3. Submittal Of A Waste Management Plan.

- a) An applicant for a covered project must submit a WMP on a form approved by the City as part of the application requirements for a demolition, construction or remodeling permit. The completed WMP must include the following:
 - 1) Estimated weight of project C&D Debris, by material type, that will be generated; and
 - 2) Maximum weight of each material type that can be feasibly diverted through deconstruction, reuse or recycling; and
 - 3) Facility or vendor that will be used to collect or receive that material; and
 - 4) Estimated weight of C&D Debris that will be landfilled; and
 - 5) Total square footage of the project.

Section 43.8.4. Review Of A Waste Management Plan..

a) Approval. Notwithstanding any other provision of this Code, no permits will be issued for any covered project, unless and until the Official has approved the WMP. If the Official determines that the required conditions have been met, the WMP will be marked "Approved" and a copy of the WMP returned to the applicant. A WMP will be approved only if the Official determines that the following conditions have been met:

- 1) The WMP provides all of the information set forth in Section 43.8.3; and
- 2) The WMP indicates that at least 50 percent of all C&D Debris generated by the project will be diverted through recycling, deconstruction or reuse.

b) Exception for Public Health or Safety. WMP approval will not be required when the City determines that an emergency demolition is required to protect public health or safety.

c) Non-approval. If the Official determines that the WMP does not meet the required conditions, the Official will either:

- 1) Return to the applicant the WMP marked "Denied", including a statement of reasons for non-approval; or
- 2) Return to the applicant the WMP marked "Further Explanation Required."

Section 43.8.5 Compliance With A Waste Management Plan.

a) Documentation. Prior to the issuance of a certificate of occupancy for any covered project, the applicant must submit documentation that it has met the diversion requirement for the project to the Official. This documentation must include the following:

- 1) A copy of the previously approved WMP for the project with the addition of the actual material volume or weight generated by the project; and

- 2) Receipts from both disposal and diversion facilities and/or vendors that received each material showing whether the material was landfilled or deconstructed, reused and/or recycled; and

- 3) Any additional information that the applicant believes is relevant to determining its efforts to comply with this Article; and

- 4) If the City creates a certified facility program, documentation that a certified facility was used for disposal/recycling for a project will achieve compliance with the requirements of this Article.

b) Weighing of C&D Debris. An applicant must make reasonable efforts to ensure that all C&D Debris diverted or landfilled is measured and recorded using the most accurate method of measurement available. To the extent practical, all C&D Debris must be weighed by measurement on scales. Scales must be in compliance with all regulatory requirements for accuracy and maintenance as set forth by the State of California Bureau of Weights and Measures. For C&D Debris for which weighing is not practical due to its small size or to other considerations as determined by the Official, a volumetric measurement will be used. For conversion of volumetric measurements to weight, the applicant must use the standardized conversion rates approved by the City for this purpose.

c) Determination of compliance. The Official will review the information submitted by the applicant and determine whether the applicant has complied with the diversion requirement as follows:

- 1) Full compliance: If the Official determines that the applicant has fully complied with the diversion requirement applicable to the project, such compliance will be indicated on the WMP.

- 2) Noncompliance: Administrative Penalty: If the Official determines that the applicant has not complied with this Article, or the applicant fails to submit the documentation required, then the applicant will be assessed an administrative penalty. The amount of

the penalty assessed will be ten thousand dollars (\$10,000) for demolition projects and five thousand dollars (\$5,000) for construction and remodeling projects. A project that includes demolition in addition to construction or remodeling will be subject to the demolition penalty amount.

Section 43.8.6. Infeasibility Exemption.

a) Application. If an application for a covered project experiences unique circumstances that the applicant believes make it infeasible to comply with the diversion requirement, the applicant may apply for an exemption at the time that the WMP is submitted. An applicant applying for an exemption must indicate on the WMP the minimum rate of diversion that is feasible for each material and the specific circumstances that make it infeasible to comply with the diversion requirement.

b) Meeting with the Official. The Official will review the information supplied by the applicant and may meet with the applicant to discuss possible ways of meeting the diversion requirement.

c) Granting of exemption. The Official will issue an infeasibility exemption if the following findings are made:

1) Circumstances exist which are unique to the project such that compliance with the provisions of this Article would create an unusual burden on the project which is different than that of similarly situated projects; or

2) For a specific project, compliance with the requirements of the ordinance codified in this Article would result in minimal or no increase in recycled materials or reduction in the waste stream; or

3) That diversion of one or more substances involved in the project presents unique and burdensome obstacles and would create an especially onerous economic burden on the project unless diversion of that substance is reduced or eliminated; or

4) A project is a re-roofing Project.

If the Official is able to make one or more of the above findings for a project, the Official may excuse the project from compliance with this Article, or determine the maximum feasible reduced diversion rate for each material and indicate this rate on the WMP submitted by the applicant.

d) Denial of exemption. If the Official determines that it is possible for the applicant to meet the diversion requirement, the Official will so inform the applicant in writing. The applicant will have thirty (30) days to resubmit a WMP. If the applicant fails to resubmit the WMP, or if the resubmitted WMP does not comply with Section 43.8.3, the Official will deny the WMP in accordance with Section 43.8.4.

Section 43.8.7. Appeal.

a) The determination of the Official may be appealed to the Public Works Director or his/her designee upon written request of any applicant. An applicant must file the appeal within fifteen (15) days after the rendering of the original decision. The date of the rendering of the original decision will be determined in accordance with Section 11.6.1 of this Code. The decision of the Public Works Director or his/her designee will be final.

b) The notice of appeal of the decision of the Official must contain the following information in addition to the information given by the applicant thereon or reasonably required by the City Clerk therefor:

1) The name, address, and telephone number of the applicant; and

2) The type of action requested; and

3) The date on which said decision was made and the name of the Official taking such action; and

- 4) The grounds on which the appeal is taken.
- c) The fee for filing an appeal will be charged as provided by resolution of the City Council.

SECTION E. PAYMENTS TO CONTRACTOR AND CLAIMS

1. Breakdown of Contract Prices. The Contractor shall, within ten (10) working days of receipt of a request from the City, submit a complete breakdown of lump sum bid prices showing the value assigned to each part of the work, including an allowance for profit and overhead. The breakdown shall include separate line for each subcontractor's bid and/or contract amount. In submitting the breakdown, the Contractor certifies that it is not unbalanced and that the value assigned to each part of the work represents its estimate of the actual cost, including profit and overhead, of performing that part of the work. The breakdown shall be sufficiently detailed to permit its use by the City Manager as one of the bases for evaluating requests for payment. No extra costs shall be allowed for these breakdowns.
2. Payment for Labor and Materials. The Contractor shall pay and cause the subcontractors to pay any and all accounts for labor, including Worker's Compensation premiums, State Unemployment and Federal Social Security payments and all other wage and salary deductions required by law. The Contractor also shall pay and cause the subcontractors to pay any and all accounts for services, equipment and materials used by it and the subcontractors during the performance of work under this contract. All such accounts shall be paid as they become due and payable. If requested by the City Manager, the Contractor shall immediately furnish the City with proof of payment of such accounts.
3. Additional Work. Payment for additional work and all expenditures in excess of the bid amount must be authorized in writing by the City Manager. Such authorization shall be obtained by the Contractor prior to engaging in additional work. It shall be the Contractor's sole responsibility to obtain written approval from the City Manager for any change(s) in material or in the work proposed by suppliers or subcontractors. No payment shall be made to the Contractor for additional work which has not been approved in writing, and the Contractor hereby agrees that it shall have no right to additional compensation for any work not so authorized.
4. Claims. The Contractor shall not be entitled to the payment of any additional compensation for any cause, including any act, or failure to act, by the City, or the happening of any event, thing or occurrence, unless he shall have given the City due written notice of potential claim as hereinafter specified.

The written notice of potential claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. Said notice shall be submitted on a form approved by the City at least forty-eight (48) hours (two working days) in advance of performing said work, unless the work is of an emergency nature, in

which case the Contractor shall notify and obtain approval from the Inspector prior to commencing the work. The City Manager may require the Contractor to delay construction involving the claim, but no other work shall be delayed, and the Contractor shall not be allowed additional costs for any said delay but may be allowed on extension of time if the City Manager agrees that the work delayed is a controlling element of the Construction Schedule. The Contractor shall be required to submit any supporting data (or a detailed written explanation justifying further delay) within five (5) Work Days of a request from the City Manager and shall be responsible for any delays resulting from late and/or incomplete submittals. By submitting a Bid, the Contractor hereby agrees that this Section shall supersede Sections 6-6.3 and 6-6.4 of the Standard Specifications.

The City shall be the sole authority to interpret all plans, specifications and contract documents, and no claim shall be accepted which is based on the Contractor's ignorance, misunderstanding or noncompliance with any provision or portion thereof. The Contractor shall be responsible to provide all data and to obtain all approvals required by said Specifications. No claims or extras shall be approved by the City unless all work was done under the direction of and subject to the approval of the Inspector.

It is the intention of this Subsection that differences between the parties arising under and by virtue of the Contract be brought to the attention of the City Manager at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that it shall have no right to additional compensation for any claim that may be based on any such act, failure to act, event, thing or occurrence for which no written notice of potential claim as herein required was filed.

5. Noncompliance with Plans and Specifications. Failure of the Contractor to comply with any requirement of the Plans and Specifications, and/or to immediately remedy any such noncompliance upon notice from the City Manager, may result in suspension of Contract Progress Payments. Any Progress Payments so suspended shall remain in suspension until the Contractor's operations and/or submittals are brought into compliance to the satisfaction of the City Manager. No additional compensation shall be allowed as a result of suspension of Progress Payments due to noncompliance with the plans or specifications. The Contractor shall not be permitted to stop work due to said suspension of Progress Payments.
6. Request for Payment. Contractor shall submit all requests for payment on AIA Document G702 – Application and Certificate for Payment and G703- Continuation Sheet. For each item provide a column for listing: Item Number; Description of Work; Scheduled Value, Previous Application; Authorized Change Orders; Total completed and Stored to Date of Application; Percentage of Completion; Balance to Finish; and Retainage.

Prior to submittal of said form, all items for which payment is requested shall be checked and approved in writing by the City Manager. No payments will be made unless all back-up data is submitted with the payment request and the Progress Payment Invoice is signed by both Contractor and Manager.

The City will retain 5 percent of the value of all work done and materials installed as part security for fulfillment of the contract by Contractor. The full 5 percent retention will be retained on all payments for 35 days after the filing of the Notice of Completion.

There shall be no separate payment for any relocations, barriers or forms, grading or temporary construction required to construct the improvements herein. Payment for these items shall be absorbed in the Bid Prices for the applicable work to which they are appurtenant, and no extra costs shall be allowed.

The payment of amounts due to the Contractor shall be contingent upon the Contractor furnishing the City with a release of all claims against the City arising by virtue of the Contract related to said amounts. It is the contractor's responsibility to provide the correct releases in order to obtain payment by the City. The Contractor shall provide the City with Unconditional Lien Release on Final Payment with a zero balance is required from all material suppliers and subcontractors with the request for final payment.

RECITALS:

- A. The CITY wishes to retain the services of an experienced and qualified CONTRACTOR to furnish all labor, materials, tools, equipment and incidentals in accordance with the specifications prepared by the City of Torrance;
- B. In order to obtain the desired services, The CITY has circulated a Notice Inviting Bids for Renovation of Columbia Park Soccer Fields, Notice Inviting Bids No. **B2013-08** (the “NIB”); and
- C. CONTRACTOR has submitted a Bid (the “Bid”) in response to the NIB. CONTRACTOR represents that it is qualified to perform those services requested in the Plans and Specifications. Based upon its review of all Bids submitted in response to the NIB, The CITY is willing to award the contract to CONTRACTOR.

AGREEMENT:

1. SERVICES TO BE PERFORMED BY CONTRACTOR

CONTRACTOR will provide the services and install those materials listed in the Plans and Specifications, which are on file in the General Services Department. The NIB and the Plans and Specifications are made a part of this Agreement. A copy of the Bid is attached as Exhibit A.

2. TERM

Unless earlier terminated in accordance with Paragraph 4 below, this Agreement will continue in full force and effect for one year from Effective Date.

3. COMPENSATION

- A. CONTRACTOR’s Fee.

For services rendered pursuant to this Agreement, CONTRACTOR will be paid in accordance with CONTRACTOR’s Bid; provided, however, that in no event will the total amount of money paid the CONTRACTOR, for services initially contemplated by this Agreement, exceed the sum of \$ unless otherwise first approved in writing by the CITY

- B. Schedule of Payment.

Provided that the CONTRACTOR is not in default under the terms of this Agreement, upon presentation of an invoice, CONTRACTOR will be paid monthly, within 30 days after the date of the monthly invoice.

4. TERMINATION OF AGREEMENT

A. Termination by CITY for Convenience.

1. CITY may, at any time, terminate the Agreement for CITY's convenience and without cause.
2. Upon receipt of written notice from CITY of such termination for CITY's convenience, CONTRACTOR will:
 - a. cease operations as directed by CITY in the notice;
 - b. take actions necessary, or that CITY may direct, for the protection and preservation of the work; and
 - c. except for work directed to be performed prior to the effective date of termination stated in the notice, terminate all existing subcontracts and purchase orders and enter into no further subcontracts and purchase orders.
3. In case of such termination for CITY's convenience, CONTRACTOR will be entitled to receive payment for work executed; and costs incurred by reason of such termination, along with reasonable overhead and profit on the work not executed.

B. Termination for Cause.

1. If either party fails to perform any term, covenant or condition in this Agreement and that failure continues for 15 calendar days after the nondefaulting party gives the defaulting party written notice of the failure to perform, this Agreement may be terminated for cause; provided, however, that if during the notice period the defaulting party has promptly commenced and continues diligent efforts to remedy the default, the defaulting party will have such additional time as is reasonably necessary to remedy the default.
2. In the event this Agreement is terminated for cause by the default of the CONTRACTOR, the CITY may, at the expense of the CONTRACTOR and its surety, complete this Agreement or cause it to be completed. Any check or bond delivered to the CITY in connection with this Agreement, and the money payable thereon, will be forfeited to and remain the property of the CITY. All moneys due the CONTRACTOR under the terms of this Agreement will be retained by the CITY, but the retention will not release the CONTRACTOR and its surety from liability for the default. Under these circumstances, however, the CONTRACTOR and its surety will be credited with the amount of money retained, toward any amount by which the cost of completion exceeds the Agreement Sum and any amount authorized for extra services.

3. Termination for cause will not affect or terminate any of the rights of the CITY as against the CONTRACTOR or its surety then existing, or which may thereafter accrue because of the default; this provision is in addition to all other rights and remedies available to the CITY under law.

C. Termination for Breach of Law.

In the event the CONTRACTOR or any of its officers, directors, shareholders, employees, agents, subsidiaries or affiliates is convicted (i) of a criminal offense as an incident to obtaining or attempting to obtain a public or private contract or subcontract, or in the performance of a contract or subcontract; (ii) under state or federal statutes of embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, or any other offense indicating a lack of business integrity or business honesty which currently, seriously, and directly affects responsibility as a public consultant or contractor; (iii) under state or federal antitrust statutes arising out of the submission of bids or proposals; or (iv) of violation of Paragraph 19 of this Agreement; or for any other cause the CITY determines to be so serious and compelling as to affect CONTRACTOR's responsibility as a public consultant or contractor, including but not limited to, debarment by another governmental agency, then the CITY reserves the unilateral right to terminate this Agreement or to impose such other sanctions (which may include financial sanctions, temporary suspensions or any other condition deemed appropriate short of termination) as it deems proper. The CITY will not take action until CONTRACTOR has been given notice and an opportunity to present evidence in mitigation.

5. FORCE MAJEURE

If any party fails to perform its obligations because of strikes, lockouts, labor disputes, embargoes, acts of God, inability to obtain labor or materials or reasonable substitutes for labor or materials, governmental restrictions, governmental regulations, governmental controls, judicial orders, enemy or hostile governmental action, civil commotion, fire or other casualty, or other causes beyond the reasonable control of the party obligated to perform, then that party's performance shall be excused for a period equal to the period of such cause for failure to perform.

6. RETENTION OF FUNDS

CONTRACTOR authorizes the CITY to deduct from any amount payable to CONTRACTOR (whether or not arising out of this Agreement) any amounts the payment of which may be in dispute or that are necessary to compensate the CITY for any losses, costs, liabilities, or damages suffered by the CITY, and all amounts for which the CITY may be liable to third parties, by reason of CONTRACTOR's negligent acts or omissions or willful misconduct in performing or failing to perform CONTRACTOR's obligations under this Agreement. In the event that any claim is made by a third party, the amount or validity of which is disputed by CONTRACTOR, or any indebtedness exists that appears to be the basis for a claim of lien, the CITY may withhold from any payment due, without liability for interest because of the withholding, an amount sufficient to cover the claim. The failure of the CITY to exercise the right to

deduct or to withhold will not, however, affect the obligations of CONTRACTOR to insure, indemnify, and protect the CITY as elsewhere provided in this Agreement.

7. THE CITY'S REPRESENTATIVE

Mike Simoneau, Park Services Supervisor is designated as the "City Representative," authorized to act in its behalf with respect to the work and services specified in this Agreement and to make all decisions in connection with this Agreement. Whenever approval, directions, or other actions are required by the CITY under this Agreement, those actions will be taken by the City Representative, unless otherwise stated. The City Manager has the right to designate another City Representative at any time, by providing notice to CONTRACTOR.

8. CONTRACTOR REPRESENTATIVE(S)

The obligation to indemnify, defend and hold harmless includes, but is not limited to, any liability or expense, including defense costs and legal fees, arising from the negligent acts or omissions, or willful misconduct of CONTRACTOR, its officers, employees, agents, subcontractors or vendors. It is further agreed, CONTRACTOR's obligations to indemnify, defend and hold harmless will apply even in the event of concurrent negligence on the part of CITY, the City Council, each member thereof, present and future, or its officers, agents and employees, except for liability resulting solely from the negligence or willful misconduct of CITY, its officers, employees or agents. Payment by CITY is not a condition precedent to enforcement of this indemnity. In the event of any dispute between CONTRACTOR and CITY, as to whether liability arises from the sole negligence of the CITY or its officers, employees, agents, subcontractors or vendors, CONTRACTOR will be obligated to pay for CITY's defense until such time as a final judgment has been entered adjudicating the CITY as solely negligent.
