

**TO:** Members of the Planning Commission  
**FROM:** General Plan Update Team  
**DATE:** April 23, 2008  
**SUBJECT:** General Plan Workshop #16, Draft Circulation and Infrastructure Element and Noise Element

**Purpose**

The draft Circulation and Infrastructure and Noise Elements and corresponding Implementation Plans have been prepared for your review and consideration. These elements were prepared with input from the public, Traffic Commission, and the Environmental Quality and Energy Conservation Commission.

The purpose of this workshop is to present rough drafts of the Circulation and Infrastructure and Noise Elements and to receive comments from the Planning Commission and the public. A second draft of the General Plan will be prepared after the Planning Commission and public have had the opportunity to review and comment on the rough draft of each element. Public hearings will be conducted by the Planning Commission to consider and make recommendations on the second draft of the entire General Plan and draft Environmental Impact Report to the City Council.

**Next Workshop**

In the coming months, staff will be bringing forward the draft Land Use and Housing elements as they are completed for your consideration. The dates for these upcoming workshops have not yet been determined.

Prepared by,

Respectfully submitted,

Kevin Joe, AICP  
Planning Associate

Carolyn Chun  
Senior Planning Associate
