## ***Construction, Inc.***

### **VCI Overview**

VCI Construction is a full-service communications contractor – the company constructs and maintains the voice, data, video and control networks that are the basis of modern communications systems. Customers rely on us to build the networks that bring utilities into their organizations and businesses.

Established in 1993 to provide services to the underground, aerial and wireless industries in California, VCI has since expanded its services to include wet utility services and directional bore in 1996.

### **Why Choose VCI Construction?**

VCI has installed and maintained thousands of miles of conduit to deliver outside plant telecom services. The company has a thorough knowledge of the telecom industry requirements and specifications and has spent years obtaining valuable industry experience.

A deep understanding of the California geographic marketplace sets VCI apart from others in the area. Very few communications contractors operating in California are able to provide the qualified manpower and technical expertise that customers expect. VCI has the resources to execute any size project – even under rigid time constraints. Long, established customer relationships demonstrate that VCI is a reliable source of telecom, electric and wet utility services.

### **Our Commitment: Safety, Quality & Continuous Improvement**

VCI prides itself on the ability to respond promptly and competently to customers' needs while maintaining a high standard of employee safety. Another component of the company's plan is to provide a safe job site for crews, subcontractors, customers' workers and the public. At VCI headquarters in Upland, CA, safety instructors provide regular training classes on topics ranging from California and Federal OSHA requirements to the highly specialized safety training required for job classifications. These training sessions allow VCI to serve customers more efficiently and therefore allow a better product.

VCI's organizational philosophies are consistent with the tenets of Total Quality Management, and the company has implemented quality control procedures in all processes and manual work practices. This ensures a quality outcome every time. In addition, emphasis is placed on prevention rather than reaction. Training employees to establish a personal commitment to quality, and teaching them to rely on self-inspection is a vital component of VCI's superior quality.

The telecom industry is a process-driven environment that is focused on continuous improvement, best practices and world-class performance. VCI's quality program keeps the company on cutting-edge, offering the best techniques and methodologies to customers. The end result is a value-driven culture committed to maximizing internal efficiencies and streamlining operations.

### ***Telecommunications Services***

VCI Construction meets the challenging requirements of today's complex communications systems. Our comprehensive scope of service begins with signal origination and continues through backbone distribution and customer installation.

**Part I Taxpayer Identification Number (TIN)**

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

**Part II Certification**

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below), and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

**General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** The IRS has created a page on IRS.gov for information about Form W-9, at [www.irs.gov/w9](http://www.irs.gov/w9). Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

**Purpose of Form**

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the

withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

**Note.** If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.
