2. **REFER TO SECTION E - SPECIAL PROVISIONS on page 37.** Add the following subsection:

7-16 RAILWAY RIGHTS-OF-WAY

7-16.1 Railroad Operations

Railroad tracks are active and will be in use during the course of this project, unless otherwise indicated. The track within Sartori Avenue rights-of-way (ROW) is owned and operated by the Union Pacific Railroad (UPRR). The track adjacent to Madrid Avenue ROW is owned and operated by the Burlington Northern and Santa Fe Railway (BNSF).

Work adjacent to tracks will be governed by the rules of the respective railroad entities and other regulatory Agencies (as required).

Specifically, for the work along Sartori Avenue ROW that is within 25' of the centerline of the track:

1. Contractor activities shall be coordinated with UPRR.
2. Before entering the railroad company's right of way, the following must be completed:
 - Agreement(s) **must be executed** by the applicant and the railroad company. A copy of the executed agreement(s) must be within the applicant's possession before entering the railroad company's right of way.
 - License fees and insurance certificates, if required, must be submitted at the time you execute and return the agreement.
 - Clearance and approval from the railroad company's Fiber Optic Cable Hotline (800) 336-9193.

In addition, Contractor must give the local manager five (5) working days advance notice when flagging services will not be necessary.
 - Contractor will be required to obtain Railroad Protective Liability Insurance. This may be purchased from an insurance agent of your choice, or you may be eligible for inclusion in UPRR's Railroad Protective Liability Insurance program which can be found here: <http://www.uprr.com/reus/rrinsure/index.shtml>
 - As the Contractor is employed by the Licensee to perform any of the agreed to activities under the Right of Entry Agreement, that Contractor will need to complete and return the Contractor's Endorsement Form and submit along with it a \$500 Administrative Fee and a copy of their General Liability Insurance certificate meeting the specified coverages as shown in the License Agreement.
 - Contractor must insure that each of its employees, subcontractors, agent or invitees completes the Railway's Engineering Contactor Safety Orientation for UPRR at the website www.contractororientation.com before any work is performed within 25' of the centerline of the track.

Railroad traffic and operations are continuously occurring throughout the day and night on these tracks. The Contractor shall be responsible for becoming familiar with the train activity on these tracks in order to plan and perform the work.

7-16.2 Payment

There shall be no extra payment for coordination with UPRR or the administration fee. Full compensation for coordination and the administration fee shall be included in the Contract unit bid prices for the associated items of work for which it is needed.

The Contractor is not entitled to payment for Railroad Flagging as it will be performed by Railroad Forces. Any flagging performed by the Contractor shall be included in the Contract unit bid prices for the associated items of work for which it is needed.
