BE AWARE
Know your neighborhood! Identify neighbors who may need additional assistance such as:
Seniors
Families with children
Persons with functional or access issues

KNOW YOUR RESPONSE
You may not always be with loved ones when a disaster strikes. Talk about your response and how you will reconnect after. Communication lines may be down, so having a rehearsed plan is critical to alleviating anxiety.

Earthquakes
Drop, Cover, Hold. Stay where you are until the shaking subsides

Shelter-in-Place or Evacuate
Understand what it means and what to do.

COMMUNICATE THE MESSAGE
Talk about your plan
Use text messaging to send and receive messages
Use Social Media to let family know #I'mOK.
